Hire Our Veterans Tax Credit

Signed into law on April 18, 2017, the Hire Our Veterans Act created an employer tax incentive program designed to promote the employment of veterans. The program provides up to $1,800 in state income tax credits to small businesses each time they hire a qualified veteran. Small businesses are able to earn tax credits for each veteran they hire, up to 5 veterans per year.

The credit equals 30% of the wages that the business paid to a qualified veteran employee, up to a maximum of $1,800 for each qualified veteran employee hired on, or after, January 1, 2017. This credit is only available for wages paid during the qualified veteran's first year of employment. A business may claim up to 5 qualified veteran employees for a maximum of $9,000 credit for each taxable year. The total amount of credits available each year is capped at $500,000, and approvals of the tax credit certifications are on a first-come, first-served basis.
