

Maryland Federal Facilities Profile

National Institutes of Health (NIH)

9000 Rockville Pike
Bethesda, Maryland 20892
301-496-4000
Montgomery County

www.nih.gov

Director: Francis Collins, MD, PhD

Department: Department of Health and Human Services (HHS)

Maryland Employees: 17,535

Procurement Contracts in 2015:

- \$4,549,832,397 US Total
- \$2,560,577,424 Performed in Maryland

History & Mission: NIH traces its roots to 1887 with the creation of the Laboratory of Hygiene at the Marine Hospital in Staten Island, NY. It grew and was reorganized in 1930 by the Ransdell Act into the National Institute of Health (singular at the time). NIH moved to Bethesda in July 1938. NIH is helping to lead the way toward important medical discoveries that improve people's health and save lives. NIH scientists investigate ways to prevent disease as well as the causes, treatments, and cures for common and rare diseases. NIH is dedicated to improving the health of Americans by conducting and funding medical research. NIH also trains scientists, and communicates medical and health sciences information to patients, their families, health care providers and the general public.

National Institutes of Health Bayview Campus

Five acres of land for a Gerontology Research Center were donated by the City of Baltimore in December 1962. On June 15, 1968, the four-story \$7.5 million Gerontology Research Center building, located at and operated in cooperation with Baltimore City Hospitals, was officially opened. In 2006, a new biomedical research facility opened on the Johns Hopkins Bayview Medical Center campus to house the National Institutes on Aging and Drug Abuse.

NIH's Biomedical Research Center at Bayview houses scientists and support staff working on biomedical intramural research programs for the NIH's National Institute on Drug Abuse and National Institute on Aging. The 573,000 square-foot facility provides state-of-the-art laboratory, vivarium, clinical, library and office space.
