

Brief Economic Facts

BALTIMORE CITY, MARYLAND

With a thriving port and easy access via rail, air and highways, Baltimore's strategic Mid-Atlantic location in the densely populated and economically vibrant Washington, DC–Boston corridor is a prime asset for its continued economic development. Baltimore also has six key industry sectors which present future growth opportunities – financial and professional services, health and bioscience technology, culture and tourism, information and creative services, logistics, and advanced manufacturing.

Baltimore accounts for 23 percent of the region's total population and its diverse resident base is stable and growing, slowly reversing decades of population loss. Baltimore City's 13,300 businesses employ 272,000 workers and over 400 of these businesses have 100 or more workers.

More than 60 federal agencies and research labs are within 30 miles, bringing substantial federal spending and jobs to the city. Johns Hopkins Hospital and University is the largest recipient of federal research dollars nationally. The city has two state-of-the-art biotechnology business parks, and numerous other business

and industrial parks. As Baltimore is home to 13 colleges and universities, businesses have great access to a well-educated young-adult population.

The Port of Baltimore, Foreign Trade Zone #74, and Enterprise Zone are significant economic engines for the region. The Port of Baltimore is the number one roll-on/roll-off port in the U.S.; Foreign Trade Zone #74 is a non-contiguous duty free area with more than 1,200 acres; and the Enterprise Zone is the state's largest (13,453 acres) and is one of only two statewide providing Focus Area benefits.

LOCATION

Driving distance from Baltimore:	Miles	Kilometers
Atlanta, Georgia	658	1,059
Boston, Massachusetts	397	639
Chicago, Illinois	688	1,108
