

Maryland Defense Agency Profile

U.S. Army Communications - Electronics Command (CECOM)

6585 Surveillance Loop
Aberdeen Proving Ground, 21005
443-861-6719
[Website](#)

Senior Commander: Maj. Gen. Robert L. Edmonson II
Department: Department of Defense
Parent Agency: United States Army Material Command
Branch: U.S. Army

History & Mission: CECOM sustains and delivers command, control, communications, computers, cyber, intelligence, surveillance, and reconnaissance (C5ISR) readiness for American Soldiers. CECOM specializes in communications-electronics systems and equipment, to include setting up headquarters and command and tactical operations centers in remote areas to installing and maintaining communications systems in vehicles and aircraft. CECOM also provides training activities, field support for modifications and upgrades, and logistical expertise.

Major Subordinate Commands and Centers

U.S. Army Medical Logistics Command (AMLC)

The Army's primary medical logistics and sustainment command, responsible for managing the global supply chain and medical materiel readiness across the Total Force. Headquarters: Fort Detrick, MD

[Website](#)

Integrated Logistics Support Center (ILSC)

Provides global logistics support for C5ISR systems and equipment through rapid acquisition, maintenance, production, fielding, new equipment training, operations and sustainment to meet the Army's Reset and Readiness goals in support of Army and coalition forces. Headquarters: Aberdeen Proving Ground, MD

Federal Facilities Profile

U.S. Army Communications-Electronics Command (CECOM)

Software Engineering Center (SEC)

Provides full life cycle software engineering support to aid the warfighter. From supporting project managers, to maintaining existing software, to developing customer software from the ground up, the SEC will tailor its support to meet the needs of its customers for any system, on any platform, anywhere in the world. Headquarters: Aberdeen Proving Ground, MD

[Website](#)

Army Contracting Command – Aberdeen Proving Ground

Provides responsive, cost-effective and compliant contracting solutions in support of national defense objectives. Headquarters: Aberdeen Proving Ground, Maryland

[Website](#)

Central Technical Support Facility (CTSF)

Provides configuration management, system-of-system integration, interoperability testing, and training and integration facilities for the Army and C5ISR providers. Headquarters: Fort Hood, Texas

[Website](#)

U.S. Army Information Systems Engineering Command (USAISC)

Provides systems engineering, installation, integration, implementation and evaluation support for communications and information technology systems worldwide, providing capabilities to Army organizations, combatant commanders, DOD agencies, and federal agencies in support of the warfighter. Headquarters: Fort Huachuca, Arizona

[Website](#)

Tobyhanna Army Depot (TYAD)

Provides world-class logistics support for C5ISR systems across the DOD, including sustainment, overhaul and repair, fabrication and manufacturing, engineering design and development, systems integration, software depot maintenance, technology insertion and modification, foreign military sales, and global field support. Headquarters: Tobyhanna, Pennsylvania
