

DEPARTMENT OF THE AIR FORCE 11TH CONTRACTING SQUADRON (AFDW) JOINT BASE ANDREWS, MARYLAND 20762

Dear Sir/Ma'am,

I first want to thank you for attending the 2019 Joint Base Andrews Small Business Summit. It's humbling to see so many small businesses interested in enabling JBA to continue being the premier installation across the Air Force. Joint Base Andrews has a unique yet highly successful mission. However, our mission success is heavily dependent on the partnerships established with the local community and the services you all provide. It's through our collaborative efforts that we are able to support two higher headquarters, five wings, and 84 tenant units spread across the National Capitol Region.

Over the past three years, Andrews has averaged a \$155M annual spend and when it comes to annual small business goals, the 11th Contracting Squadron has met or exceeded them every year. The FY19 goals are:

٥	SB	SDB	SDVOSB	WOSB	HUBZ
FY19	40.82%	30.52%	13.62%	14.5%	8.77%

As we begin to move into the final months of FY19, procurement requests from Mission Partners will inevitably arise. As promised, attached is a copy of all presentation and a current list all unobligated requirements with the 11th Contracting Squadron. If you wish to be placed in contact with POCs who oversee acquisitions which mirror your company's capability, please send your capability statement to brandon.a.sandoval.mil@mail.mil. I will put you in touch with the correct personnel.

Again, thanks for attending. I look forward to working with you, whether that be through a continued partnership, or by establishing one for the first time.

Respectfully,

Brandon A. Sandoval, Major, USAF

30 a. 200

Commander, 11th Contracting Squadron

Prioritization Model

- Model implemented in FY15
 - Prioritizes all infrastructure requirements based on risk to mission and Airmen
- Probability of Failure
 - Existing asset condition, compliance, and functionality
 - For new mission or capability, based on mission impact and availability of work arounds
- Consequence of Failure
 - Captures asset impact to mission, readiness, and effectiveness
 - Mission Dependency Index (60%)
 - MAJCOM Prioritization (40%)
 - Commanders asked to look beyond score, exercise professional military judgement
 - Communicate importance of requirement to mission, readiness, and lethality
